Comment:

If forecast is correct, we'll end the year with a large balance of over £2580 - much more than usual. Opening balance was up £600 on previous year; Precept was raised on advice to cover more delegation from central government. Newsletter & cemetery income are also up on last year.

We are encouraged to build a reserve for future elections which parish councils will have to pay more for - £3 per elector in our case means a reserve of £1150.

There is certainly no need to increase the Precept next year, and I would advise 'steady as she goes'.
